

SEEK FORAGE Feb/March 2015 Conservation Service plant offerings

Planting healthy forage with clean nectar and pollen is one important way to really help the bees. If you can - **PLANT!**

Each spring the Conservation Service has tree sales with great prices but deadlines for ordering are approaching quickly. We urge you to place your order now! :)

Each site has much more detailed information about how to plant and other services like rental of tree planting machines and other fun stuff!

Every county has different offerings. Information about good plants for honeybees can be found at : http://en.wikipedia.org/wiki/Northern_American_nectar_sources_for_honey_bees
